Subject: Microsoft lawsuit

Attorney General Ashcroft:

Please drop all anti-trust suits against Microsoft. Microsoft has done nothing wrong. Microsoft is simply popular and deserving of success. Bill Gates is an American hero.

Anti-trust laws are anti-business and should be abolished. If monopoly busting is a goal of the Department of Justice, then go after the true culprits: Amtrak, the U.S. Postal Service, public education, and Indian casinos to name but a few.
